

# Laboratory Equipment & Solutions for R&D in Pharmaceuticals, Biotechnology, and Life Sciences

STEQ America brings you advanced, industry-leading European solutions, constructed to provide the highest process integrity, reliability and longevity.

**MATACHANA**  
LABORATORY  
GLASSWARE  
WASHERS  
●●● **matachana**

## FEATURING

- Undercounter or freestanding
- Premium parts
- Short time cycle: pre-wash, wash, rinse, thermo-disinfection & drying
- Optimized circuits, flow & energy
- Reduced water consumption
- Built-in water preheater

**VICI DBS**  
HIGH PURITY  
GAS  
GENERATORS  
**VICI DBS**

## FEATURING

- Hydrogen, nitrogen or zero air for GC, Mass-Spec or LC Mass-Spec
- Safe, economical & convenient replacement for gas cylinders
- Cascade up to 32 hydrogen units
- Produce both hydrogen gas & zero air with the FID Station Plus

**ARCTIKO**  
-86°C ULTRA-LOW  
TEMPERATURE  
FREEZERS  
**ARCTIKO**

## FEATURING

- Low or ultra-low temperature
- Ultra-low temperature with redundant dual cooling
- Patented compressor technology
- Multiple alarm options
- 72-hr battery backup for smart controller and data logger

**MEMMERT**  
TEMPERATURE  
CONTROLLED  
APPLIANCES  
**memmert**  
Experts in Thermostatics

## FEATURING

- Heating & drying ovens, sterilizers & vacuum ovens
- Incubators (standard, CO<sub>2</sub> & storage cooled)
- Climate chambers (constant, humidity, stability & environmental)
- Water & oil baths

**DÜPERTHAL**  
SAFETY  
STORAGE  
CABINETS  
**DUEPERTHAL**

## FEATURING

- HPLC Service Station
- Bench-top & disposal cabinets
- Passive storage
- Active storage
- Gas cylinder storage
- Environmental cabinets

**SERVICES & SUPPORT**

## INCLUDING

- Equipment validation
- IQ/OQ & calibrations
- Preventive & corrective maintenance
- Process optimization
- Technical support
- Operator & technician training

## Additional Products & Services

STEQ America is dedicated to helping pharmaceutical, biotechnology and life sciences companies find the right solutions to be leaders in their industry.

*Consider our manufacturing lines of equipment and solutions...*

For more than 20 years, IWT high performance washing solutions have been installed in life science and pharmaceutical companies worldwide.

*We offer:*

- cGMP parts washers and bulk washers for IBC's, with steam or electric heating and TOC/conductivity monitoring
- Single pass, high pressure CIP systems for fixed tanks and blenders
- Custom parts racks

Since the mid-1970s, Comecer has been specializing as a world leader in containment systems for pharma and radiopharma. They continue to engineer and manufacture highly advanced, customized isolation technologies and aseptic filing systems.

*Applications for:*

- Aseptic filling
- Sterility testing
- HAPI dispensing
- Cell & gene therapy isolator technology

## Manufacturing Equipment

Matachana has been producing premium, small to bulk steam sterilizers for more than 50 years. These sterilizers are engineered for flexibility, and to support your cGMP, QC testing and QC application needs.

*Featuring:*

- Stainless steel piping for all steam circuits
- Dual PLC configuration for Control & Monitoring
- Unparalleled documentation
- Multitude of chamber, door and cycle configurations
- Non-proprietary components
