

# Equipment for Manufacturing & Production in Pharmaceuticals, Biotechnology, and Life Sciences

STEQ America brings you advanced, industry-leading European solutions for steam sterilization, isolation technology, and cGMP washing solutions.

For more than 20 years, IWT high performance washing solutions have been installed in life science and pharmaceutical companies worldwide.

*We offer:*

- cGMP parts washers and bulk washers for IBC's, with steam or electric heating and TOC/conductivity monitoring
- Single pass, high pressure CIP systems for fixed tanks and blenders
- Custom parts racks

Since the mid-1970s, Comecer has been specializing as a world leader in containment systems for pharma and radiopharma. They continue to engineer and manufacture highly advanced, customized isolation technologies and aseptic filling systems.

*Applications for:*

- Aseptic filling
- Sterility testing
- HAPI dispensing
- Cell & gene therapy isolator technology

## Manufacturing Equipment

Matachana has been producing premium, small to bulk steam sterilizers for more than 50 years. These sterilizers are engineered for flexibility, and to support your cGMP, QC testing and QC application needs.

*Featuring:*

- Stainless steel piping for all steam circuits
- Dual PLC configuration for Control & Monitoring
- Unparalleled documentation
- Multitude of chamber, door and cycle configurations
- Non-proprietary components

## Laboratory Equipment

### Additional Products & Services

STEQ America is dedicated to helping pharmaceutical, biotechnology and life sciences companies find the right solutions to be leaders in their industry.

We do this by providing premium products made by leading European manufacturers that feature the latest innovative technologies with the highest standards that provide lifetime reliability.

#### MATACHANA LABORATORY GLASSWARE WASHERS

##### FEATURING

- Undercounter washers
- Freestanding washers

#### VICI DBS GAS GENERATORS

##### FEATURING

- Hydrogen generators
- Nitrogen generators
- Zero Air generators

#### ARCTIKO -86°C ULTRA-LOW TEMPERATURE FREEZERS

##### FEATURING

- Low temperature
- Ultra-low temperature
- Ultra-low temperature dual cooling

#### MEMMERT TEMPERATURE CONTROLLED APPLIANCES

##### FEATURING

- Heating & drying ovens
- Incubators
- Climate chambers
- Water & oil baths

#### DÜPERTHAL SAFETY STORAGE CABINETS

##### FEATURING

- HPLC Service Station
- Passive storage
- Active storage & disposal
- Gas cylinder storage

#### SERVICES & SUPPORT

##### INCLUDING

- Equipment validation
- IQ/OQ & calibrations
- Technical support
- Operator & technician training
